

KR 2023

kr.org/KR2023

20th International Conference on Principles of Knowledge Representation and Reasoning September 2 – 8, 2023, Rhodes, Greece

The International Conference on Principles of Knowledge Representation and Reasoning (KR) is the annual main forum for the exchange and discussion of new ideas, issues, and results on the principles and practice of knowledge representation and reasoning, targeting scientific discourse of established researchers as well as industry and attracting young researchers to this highly active field. Knowledge Representation and Reasoning (KR) is a well-established and lively field of research. In KR a fundamental assumption is that an agent's knowledge is explicitly represented in a declarative form, suitable for processing by dedicated reasoning engines. This assumption, that much of what an agent deals with is knowledge-based, is common in many modern intelligent systems. Consequently, KR has contributed to the theory and practice of various areas in AI, including automated planning and natural language understanding, and to fields beyond AI, including databases, verification, software engineering, and robotics. In recent years, KR has contributed also to new and emerging fields, including the semantic web, computational biology, cyber security, and the development of software agents. KR 2023 will be co-located with the 21st International Workshop on Non-Monotonic Reasoning (NMR 2023) and the 36th International Workshop on Description Logics (DL 2023). We expect about 250 participants at KR 2023.

Why Sponsor KR?

The design of efficient representation and reasoning of knowledge has been hailed as the grand challenge facing AI and ML systems. KR is the premier venue that brings together researchers from academia and industry, and is uniquely positioned to identify and highlight promising research directions that would serve as bedrock for the next paradigm shift in AI.

Sponsorship Packages

As in previous years, we strive to enable students to attend both events, present their work, and get in contact with the KR community. This year we plan to continue the recently established series of "Diversity & Inclusion in KR" events to raise awareness of diversity and inclusion in the KR community, promoting the research work and networking opportunities for women, young researchers, and researchers from underrepresented countries and demographics in KR. There will also be D&I grants to provide financial support for participants from underrepresented groups to attend the conference. For this reason, we rely on, and very much welcome, funding from institutions and companies. We offer the following sponsorship packages, but are also open to individual agreements.

Features	Bronze € 1,500	Silver € 3,000	Gold € 5,000	Platinum € 7,000
Your logo & link on the conference website	✓	✓	✓	✓
Acknowledgment in conference proceedings	name+logo	name+logo	name+logo	name+logo
Acknowledgment as <i>Main Conference Sponsor</i>			✓	✓
Your logo displayed at the beginning of each session			+€ 500	✓
30s greeting at opening and closing				✓
In-person event only:				
Your logo displayed prominently on-site		✓	✓	✓
Distribution of your flyer among the participants		✓	✓	✓
Your exhibition space		+€ 500	✓	✓
Free additional banquet tickets			1	1
Free conference registrations				1
Virtual event only:				
Your logo displayed on virtual conference location		✓	✓	✓
Virtual room for Q&A session with participants			✓	✓

► In case KR becomes fully virtual, on-site logo display and the exhibition space will be provided in the virtual platform (e.g., Gather.town).
